Types of Dexpan®

(Based on Ambient and Core Temperature)

- **Dexpan® I** 77 to 104 F° (25 to 40 C°)
- **Dexpan® II** 50 to 77 F° (10 to 25 C°)
- **Dexpan® III** 23 to 50 F° (-5 to 10 C°)

- **In the demolition, concrete cutting and excavating industry**, Dexpan® helps break reinforced concrete and rock into chunks, so you may easily cut off rebar, haul it away without damage to the existing structure.
- **In the mining and quarrying industry**, Dexpan® helps to achieve almost perfect slabs and blocks from limestone, onyx, marble, granite or any other type of stone you are working with. Compared to blasting, Dexpan® helps to conserve the waste of valuable stone, high insurance, costly storage and labor.

- **Packaging:**
  Each 44 Lb. Box and/or Bucket contain Four 11 Lb. bags of the Dexpan Powder.
  11 Lb. Bucket Contains one 11 Lb. Bag of the Dexpan Powder.
- **Mixture:** Thick Pourable Slurry.
