

Version: 3.0 Revision Date: 05/03/2018

# SAFETY DATA SHEET

#### 1. Identification

Material name: VERSASPEED LS100 - 50# BAG Material: 083PLP 50

#### Recommended use and restriction on use

**Recommended use:** Cement, Portland, chemicals **Restrictions on use:** Not known.

#### Manufacturer/Importer/Supplier/Distributor Information

EUCLID CHEMICAL COMPANY 19218 REDWOOD ROAD CLEVELAND OH 44110 US

Contact person: Telephone: Emergency telephone number: EH&S Department 216-531-9222 1-800-424-9300 (US); 1-613-996-6666 (Canada)

#### 2. Hazard(s) identification

#### **Hazard Classification**

| Health Hazards  |                          |
|---|--------------------------|
| Acute toxicity (Inhalation - dust and mist)           | Category 4               |
| Skin Corrosion/Irritation                             | Category 2               |
| Serious Eye Damage/Eye Irritation                     | Category 1               |
| Skin sensitizer                                       | Category 1               |
| Carcinogenicity                                       | Category 1A              |
| Specific Target Organ Toxicity -<br>Repeated Exposure | Category 1 <sup>1.</sup> |

#### **Target Organs**

1. Lung

#### **Unknown toxicity - Health**

| Acute toxicity, oral                     | 86.5 %  |
|--|---------|
| Acute toxicity, dermal                   | 89.88 % |
| Acute toxicity, inhalation, vapor        | 99.99 % |
| Acute toxicity, inhalation, dust or mist | 91.03 % |

#### Label Elements

Hazard Symbol:

| Signal Word:                                  | Danger   |
|---|--|
| Hazard Statement:                             | Harmful if inhaled.<br>Causes skin irritation.<br>Causes serious eye damage.<br>May cause an allergic skin reaction.<br>May cause cancer.<br>Causes damage to organs through prolonged or repeated exposure.   |
| Precautionary<br>Statements                   |  |
| Prevention:                                   | Use only outdoors or in a well-ventilated area. Wash thoroughly after<br>handling. Wear protective gloves/protective clothing/eye protection/face<br>protection. Contaminated work clothing should not be allowed out of the<br>workplace. Obtain special instructions before use. Do not handle until all<br>safety precautions have been read and understood. Use personal protective<br>equipment as required. Do not breathe dust/fume/gas/mist/vapors/spray. Do<br>not eat, drink or smoke when using this product. |
| Response:                                     | IF INHALED: Remove person to fresh air and keep comfortable for<br>breathing. IF IN EYES: Rinse cautiously with water for several minutes.<br>Remove contact lenses, if present and easy to do. Continue rinsing. IF ON<br>SKIN: Wash with plenty of water/ If skin irritation or rash occurs: Get<br>medical advice/attention. Immediately call a POISON CENTER/doctor.<br>Specific treatment (see on this label). Wash contaminated clothing before<br>reuse.  |
| Storage:                                      | Store locked up.   |
| Disposal:                                     | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.   |
| Hazard(s) not otherwise<br>classified (HNOC): | None.  |

# 3. Composition/information on ingredients

#### Mixtures

| Chemical Identity C | CAS number | Content in percent (%)* |
|---------------------|------------|-------------------------|
|---------------------|------------|-------------------------|

| Crystalline Silica (Quartz)/<br>Silica Sand | 14808-60-7 | 50 - <100% |
|---|------------|------------|
| Portland cement                             | 65997-15-1 | 10 - <20%  |
| Fused calcium aluminate                     | 65997-16-2 | 5 - <10%   |
| Calcium Carbonate<br>(Limestone)            | 1317-65-3  | 5 - <10%   |
| Calcium salt                                | 7778-18-9  | 1 - <5%    |
| Magnesite                                   | 546-93-0   | 1 - <5%    |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

### 4. First-aid measures Ingestion: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. Inhalation: Move to fresh air. Skin Contact: Get medical attention. Destroy or thoroughly clean contaminated shoes. Immediately remove contaminated clothing and shoes and wash skin with soap and plenty of water. If skin irritation or an allergic skin reaction develops, get medical attention. Immediately flush with plenty of water for at least 15 minutes. If easy to do, Eye contact: remove contact lenses. Call a physician or poison control center immediately. Most important symptoms/effects, acute and delayed Symptoms: Prolonged or repeated contact with skin may cause redness, itching, irritation and eczema/chapping. Extreme irritation of eyes and mucous membranes, including burning and tearing. Indication of immediate medical attention and special treatment needed Treatment: Symptoms may be delayed.

# 5. Fire-fighting measures

General Fire Hazards: No unusual fire or explosion hazards noted.

# Suitable (and unsuitable) extinguishing media

| Suitable extinguishing media:               | Use fire-extinguishing media appropriate for surrounding materials.    |
|---|--|
| Unsuitable extinguishing media:             | Do not use water jet as an extinguisher, as this will spread the fire. |
| Specific hazards arising from the chemical: | During fire, gases hazardous to health may be formed.                  |

Special protective equipment and precautions for firefighters

| Special fire fighting procedures:  | No data available.  |
|--|---|
| Special protective equipment for fire-fighters:                            | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |
| 6. Accidental release measures   | s   |
| Personal precautions,<br>protective equipment and<br>emergency procedures: | See Section 8 of the SDS for Personal Protective Equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.   |
| Methods and material for<br>containment and cleaning<br>up:                | Collect spillage in containers, seal securely and deliver for disposal according to local regulations.  |
| Notification Procedures:   | In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.   |
| Environmental Precautions:   | Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.  |
| 7. Handling and storage  |   |
| Precautions for safe handling:   | Wash hands thoroughly after handling. Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Use personal protective equipment as required. Do not get in eyes. Avoid contact with skin. Avoid contact with eyes, skin, and clothing. Ventilate well, avoid breathing vapors. Use approved respirator if air contamination is above accepted level. Use mechanical ventilation in case of handling which causes formation of dust. |
| Conditions for safe storage,<br>including any<br>incompatibilities:        | Store locked up.  |

# 8. Exposure controls/personal protection

#### **Control Parameters**

#### **Occupational Exposure Limits**

| Chemical Identity   | Туре         | Exposure Limit Values                          | Source  |
|---|--------------|--|---|
| Crystalline Silica (Quartz)/<br>Silica Sand - Respirable<br>fraction. | TWA          | 0.025 mg/m3                                    | US. ACGIH Threshold Limit Values (2011)   |
| Crystalline Silica (Quartz)/<br>Silica Sand - Respirable dust.        | TWA          | 0.05 mg/m3                                     | US. OSHA Specifically Regulated Substances<br>(29 CFR 1910.1001-1053) (03 2016) |

Appropriate Engineering Controls Mechanical ventilation or local exhaust ventilation may be required. Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of dust.

# Individual protection measures, such as personal protective equipment

| General information:                | Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |
|-------------------------------------|--|
| Eye/face protection:                | Wear a full-face respirator, if needed. Wear safety glasses with side shields (or goggles) and a face shield.  |
| Skin Protection<br>Hand Protection: | Use suitable protective gloves if risk of skin contact.  |
| Other:                              | Wear suitable protective clothing. Wear chemical-resistant gloves,<br>footwear, and protective clothing appropriate for the risk of exposure.<br>Contact health and safety professional or manufacturer for specific<br>information.   |
| Respiratory Protection:             | In case of inadequate ventilation use suitable respirator. Seek advice from local supervisor.  |
| Hygiene measures:                   | Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Do not get in eyes. Wash contaminated clothing before reuse. Avoid contact with skin. Contaminated work clothing should not be allowed out of the workplace.   |

# 9. Physical and chemical properties
